Your Home With  
Future Proof Solar

## JA Solar

JA Solar was founded in 2005 and is the manufacturer of high-performance photovoltaic products. JA Solar is a highly recognised company that supplies its products globally.

Future Proof Solar highly recommends and fits JA Solar panels across the UK. Due to their higher output power, we predominantly install all JA solar modules.

## Trina Solar

Trina Solar was founded in 1997 and was one of the first PV enterprises in China. Trina Solar is now a world leader in solar technology and manufacturing.

Trina Solar offers a variety of different solar modules and solutions to attend to the various needs of domestic and commercial projects.

## Canadian Solar

Canadian Solar was founded in Guelph, Canada in 2001. Canadian Solar has grown over the years into one of the world's biggest Solar PV products and energy solution providers.

We offer Canadian Solar all black panels to customers who want an aesthetically pleasing look on their home.

## Solis

Solis was established in 2005. Solis is one of the largest manufacturers of solar inverters.

Solis inverters are being supplied and used all over the world. The inverter is of excellent quality and is described as reliable, efficient and dependable.

Due to the compact design and being lightweight, the Solis inverter is easy to install.

## Sofar

Sofar Solar was established in 2013 and specialises in high quality products, such as a wide range of hybrid inverters to battery storage systems.

Future Proof Solar offers Sofar Solar solutions to meet the needs of our customers nationwide.

## Foxess

Fox ESS was founded in 2019 and is one of the newer manufacturers in the renewable energy industry.

Fox is innovated by some of the world's experienced inverter and battery specialists. Future Proof Solar offers Fox products to our customers due to the advanced product features with unrivalled performance and reliability.

## Solax

SolaX Power was founded in 2012 and has rapidly grown ever since. Operating in the UK, Netherlands, Germany, Australia, Japan and the USA.

SolaX provides high-efficiency solutions that support high-efficiency, high-power photovoltaic modules.

## GivEnergy

GivEnergy is a British owned battery storage manufacturer founded in 2018. GivEnergy specialise in manufacturing, research and development facilities in the UK, Ireland, Australia and Shenzhen China.

GivEnergy have their very own monitoring portal and app which is one of the most advanced energy platforms in the UK.

## Growatt

Growatt was founded in 2011 by a group of pioneers within the global PV Industry. The group had a vision to build a green and sustainable future.

Growatt offers a wide range of inverters and solar batteries to choose from. Growatt is highly reliable and cost efficient for both residential and commercial PV needs.

## Puredrive

Founded in 2016, Puredrive Energy Ltd is one of the UK's leading battery storage companies.

Based in Gloucestershire, Puredrive Energy is one of the few battery suppliers who design and manufacture in the UK.

Future Proof Solar offers Puredrive battery storage that is recognised as a reliable premium choice.

# Accreditations

You are in trusted hands! Here at Future Proof Solar we have more than 30 years experience in the renewable sector. We take pride in our work and have high standards, our list of accreditations support this.

Our installers at Future Proof Solar are MCS accredited. Households can access smart export guarantee (SEG)

At Future Proof Solar we are a HIES approved member, here to protect our consumers renewable installations.
